GREAT SKIN STARTS FROM WITHIN

- Your body works as a system where every function is connected
- Diet and nutrition play a huge role in how you feel and look
- The skin is the body's largest organ and needs to be nourished from the inside out with a balanced diet, plus supplement support

ARBONNE NUTRITION SUPPORTS HEALTHY-LOOKING SKIN

Healthy aging means that you have and are able to sustain healthy-looking skin by consistently utilizing effective skincare along with balanced nutrition. We've identified **6 key attributes** of skin that's healthy-looking in overall appearance:

- Radiance
- Firmness
- Hydration
- Reduction in the appearance of dark spots
- Smoothness
- Reduction in the look of fine lines and wrinkles

ARBONNE SKINCARE

Our integrative approach to healthy skin starts with a healthy gut, followed by a comprehensive skincare routine based on your skin's needs.

UNIQUE NEEDS OF MEN'S SKIN

A man's skin has unique needs and requires special care that differs from a woman's, in order to keep it looking and feeling its best. The RE9 Advanced[®] for Men Collection or AgeWell Collection can be best suited to support these skin needs:

- **Thickness:** Men's skin is about 25% thicker than women's, which can result in rough, duller-looking skin
- **Oil:** Post-puberty, sebum or oil production becomes more frequent
- **Sensitivity:** Regular shaving gradually breaks down the hydrolipidic film, a protective layer on the skin's surface, which reduces the skin's natural lubrication and ability to protect itself from external elements
- **Collagen Density:** Men's skin has a higher collagen density than women, and collagen production starts to decline rapidly after age 50

YOUR TWICE-DAILY SKINCARE REGIMEN

Healthy-looking skin isn't an accident — it's a result of **understanding** your skin type and creating a **skincare** and **nutrition regimen** to meet your needs. Make the time to follow it every day, morning and night. ☀️🌙
